In 1988, Marie-Thérèse Chappaz founded the Estate of Liaudisaz in Fully. Passionate about wine-growing, she had a complex, almost spiritual relationship with her vines and her wines. With a range of grape varieties, she applied the principles of biodynamics to her vineyards, a highly demanding approach as it takes into account the climate, harvest, fauna and flora in order to respect the environment. This wine-grower therefore takes great care when producing her wines, constantly seeking new aromas and flavours which could only be discerned with a great deal of passion and patience.
